

May 2017

Dear Parent:

Smart Tuition is moving to paperless online billing. We'd like you to join us in supporting our initiative.

**There are many benefits of paperless online billing:**

**Convenience**

You can easily view your balance and access your invoice just by opening an email. It's the convenient and environmentally friendly way to access monthly statements.

**Statements are protected**

Paper invoices can be misplaced. Sometimes they are stolen from mailboxes or trash. Online statements are secure and password protected.

**Modern delivery**

More and more companies are moving to online delivery. It's becoming the expected billing delivery method for payers.

**Faster access to make payments**

You can pay your bill easily from your phone, tablet, or PC. This makes it easy to get payments to your school on time.

**Good for the Earth**

Participating in online paperless billing makes you a good steward of our environment and natural resources. It's a good thing.

We know you will appreciate the many benefits of online paperless billing. We are grateful for your participation. If you decide to keep using paper, you may. Just log in to your account and turn off electronic invoices.

Thank you for using Smart Tuition.

Sincerely,

Smart Tuition
