

Stewardship Subcommittee PAC Pre-READ / MAY 2013

It has been extremely difficult to meet as a group in this past few months. Between vacations, spring breaks and Easter season, we were only together once, and that was a limited few. We also have lost John Touhy from our already small committee. I am conducting an email meeting with my committee over the next week, but would also like to ask the PAC members to bring any ideas/suggestions to our meeting to share.

CONCERNS & FOCUS

We definitely need more people on our committee to divide up responsibilities and support to proceed. We began to plan the Ministry Fair, and had difficulty with dates.

We think the fall is a better time to get people to sign up for ministries as a new year begins.

I hope to bring on some additional people new to the PAC.

Another concern I would like to address in the committee is trying to bring those back to church. I think this is a part of Stewardship, but really need to dig deep for this goal point.
