

# Prayer Blanket

## No Sew Fleece Blanket Instructions

### Materials:

2 yards of fleece

Ruler

Scissors

### Step one:

Trim off any uneven edges.

Cut a five inch square from each corner of the blanket. This is an important step; it allows the blanket to lay flat at the corners.

### Step two:

Cut fringe around the blanket.

Fringe should be one inch wide by five inch long.

### Step three:

Knot each piece of fringe. Each piece should be knotted individually; they are not knotted to one another or anything else simply tie a knot at the base of each piece of fringe.

**Please note:** These blankets are a single layer fleece. Some no sew fleece blankets are made with two layers, the knots tying each layer together. Double layer blankets are just too hot for our patients.

### Student Blessing for Prayer Blanket

“Lord, please bless this blanket and bless the person that will be using it. Let them feel the warmth of this blanket and know that we made this blanket with love. Help us to keep them in our prayers.” Amen

You may also tie a ribbon around the blanket and add a note that the blanket was prayed over for them.
